

WHEN IT COMES TO WATER SOLUTIONS, NO LEAKS ARE NO PROBLEM

GET IT ALL AT GAJESKE

With almost 40 years of expertise, we supply polyethylene piping systems that define durability.

They're seamlessly joined with heat fusion, so they're leak-free. And, under ideal conditions, HDPE piping systems have a 100-year operating life.

Our abrasion-resistant products stand strong against corrosion, bacteria, and chemical build-up generation after generation. Plus, a properly engineered HDPE piping system is less expensive to install than alternative products.

Call on us to help prevent costly problems down the line.

We're the perfect fit for every water application.

If you think Gajeske only supplies polyethylene piping systems, think again. **We supply solutions.**

We offer a complete range of services to assist you with any project that comes your way.
